Berlin, 18.07.2016

Declaration

The PI Photovoltaik Institut Berlin AG has been carried out a hail impact test with 45 mm (\varnothing) ice balls based on IEC 61215 Ed. 2 with 10 shots (*Offer No.: 20153492; Order No.: 201502740*), for the company SOLAR WATT, in December 2015. The PV module (*SN: 1150149813*) has passed the hail impact test according to the IEC criteria: 10.1 Visual inspection, 10.2 STC power measurement and 10.3 Isolation tests. Detailed information about the realization of the hail impact test can be found in the test report 201502740a_V1.

The following module type was tested:

Solarwatt 60P (SN: 1150149813)
